PRESS RELEASE

January 7, 2010
For Immediate Release

SUBJECT:

Modern Machinery Buys Spokane Machinery

PRESS RELEASE CONTENT:

Modern Machinery is pleased to announce that they have completed the acquisition of Spokane Machinery (also known as Spomac) in Spokane, Washington. Spomac has been the leader in supplying crushing and screening equipment to the mining, quarry, and contracting business throughout Eastern Washington and Northern Idaho for over 62 years. They will continue doing business as Spokane Machinery (A Modern Machinery Company).

With this acquisition Modern Machinery also becomes' the Metso Minerals distributor for Eastern Washington and the entire state of Idaho. Metso Minerals is the #1 supplier of crushing and screening equipment worldwide. This acquisition positions Modern Machinery very well in the very important crushing and screening business, for a major portion of the Pacific Northwest.

Many of the current employees of Spokane Machinery will remain with the company including Jim Peplinski who will stay on as the President of the Spomac operations for Modern Machinery.

About Modern Machinery

Modern Machinery, one of the largest Komatsu dealers in North America, has been selling and servicing heavy machinery since 1944. As the exclusive dealer for Komatsu in the Pacific Northwest, the company employs 370 plus workers in eleven locations throughout Washington, Oregon, Montana and Idaho plus two locations in Russia. Modern Machinery also carries equipment from Allied, Atlas Copco, Kolberg-Pioneer and JCI, Cummins, Esco, Fleetguard, Hensley, Sennebogen, JRB, LeeBoy, Moxy, Timbco, Valmet Komatsu Forestry, Hamm, Precision Husky, Vögele, Kleemann and Wirtgen. To find a local office, call the company at 800-332-1617 or visit their Web Site at www.modernmachinery.com.
